

Asbestos Awareness

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a new certification program, effective October 1, 2007. This course is an MTI Level 1 course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses will be offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Construction trades routinely renovate and demolish buildings that were built prior to 1981. These construction activities often result in contact with asbestos-containing materials. General Industry employers are also subject to Asbestos rules and regulations. Asbestos awareness training is required annually for employees whose work activities may contact asbestos-containing materials (ACM) or presumed asbestos-containing materials (PACM), but do not disturb ACM or PACM during their work activities. Lead is found both in industry and in construction, and poses a threat to all who come into contact with it. This combined training consists of information regarding various forms and uses of asbestos and lead. Training also includes information on the health effects associated with asbestos and/or lead exposure. Attendees will receive an asbestos awareness attendance certificate.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Asbestos: its various forms and uses.
- ▶ Health effects associated with asbestos exposure.
- ▶ Recognition and locations of asbestos containing building materials.
- ▶ Recognition of damaged, deteriorated, or delaminated asbestos containing building materials.
- ▶ Person who will carry out general responsibilities and locations of management plan, or operations of maintenance plan (O & M).
- ▶ Lead Awareness.

Facilitator

Gregg Grubb was appointed to MIOSHA's Consultation Education and Training Division in September 2006 as a Senior Industrial Hygiene Consultant servicing the south-central counties of Michigan. Gregg has worked for the State of Michigan as an Industrial Hygienist since 1987. During this time, he has spent 13 years working with MIOSHA in various education and training, consultative, and enforcement capacities. He also spent six and a half years running comprehensive environmental and occupational health and safety programs for a state-wide crime laboratory system. In this position, Gregg provided technical industrial hygiene, safety, and environmental assistance, developed training programs, conducted audits, and developed written programs.

Gregg has a B.S. in Chemical Engineering from Michigan State University. He also serves as a member of the American Conference of Governmental Industrial Hygienists' Industrial Ventilation Committee and is a co-coordinator of Michigan's Industrial Ventilation Conference.

Gregg Grubb
*Senior Industrial Hygienist,
MIOSHA, CET Division*
